Oriel College (University of Oxford, UK)

Oriel College is one of the 38 colleges that make up the University of Oxford (UK). It was founded in 1326 by King Edward II, making it not only the fifth oldest college in the university, but also the oldest royal foundation in the entire city of Oxford. In recognition of this royal connection, the college was once known as King's College.

CBL International

WorldStrides | CBL International is a leading education provider that offers short-term study abroad programmes. In partnership with the League and top British universities, we offer courses in social sciences, business, and medicine. Our university courses, executive education programmes are tailored for international students.

Historic Political and Economic Philosophy

This course gives delegates an overview of the major early philosophical schools. It covers European philosophy starting with that of Athens and Rome, and ends with the thinking prevalent in the medieval era. It will give delegates the chance

ACADEMIC WRITING & ENGLISH LITERATURE

Academic Writing and English Literature courses are a fantastic way for delegates to develop their writing skills in an academic context as well as their reading skills through the analysis of the work of literary greats. As delegates make Oxford their home during the programme, they will have the opportunity to study not just British Culture, but also the importance of effective written and verbal communication between cultures.

Academic Writing & Critical Thinking

Students will learn how to identify and critique implicit claims in academic and journalistic writing, what characterises weak arguments and how to formulate strong ones, as well as how to interpret visual arguments in video or photographic media. Students will also acquire more practical skills, including how to interpret essay questions, how to structure and reference an academic essay, as well as how to write with clarity, brevity and maximum impact.

English Literature

This course will offer delegates a strong foundation for understanding the various facets of English Literature across eras and genres, focusing on the historical and ideological depth of the selected works, while still paying attention to textual details. Prose, poetry, and drama will be considered in dynamic ways, keeping in mind the various political, socioeconomic, religious, philosophical, and cultural ideas that drove them.

Culture and Communities in 20th Century Britain

In this course we will discover how this cultural revolution in postwar Britain was achieved. We will examine the birth of the teenager and the advent of mass marketing and culture industries, such as popular music, during the late 1950s and early 1960s. We will analyse the phenomenon of 'Beatlemania'-in other words, how four working-class lads from a Northern industrial city, Liverpool, became the most significant and creative force in the history of popular music. In addition, the course will explore the influences shaping British cultural life since the Second World War. The course will introduce students to innovative new historical work being undertaken on Postwar British Culture by historians such as Dominic Sandbrook, David Fowler, and Doug Rossinow (from the US).

Intercultural Communication

This course will look at key academic and practical topics involved in intercultural communication. Drawing on the fields of literary studies, linguistics, anthropology, ethnography, and cultural studies, delegates will analyse topics including communicating between cultures; translation, verbal and non-verbal communication, and cultures and concepts.

BUSINESS & LEGAL COMMUNICATION

This course is designed to develop an individual's confidence and ability to use English within a professional environment. Covering topics such as negotiation, business presentations, client communication, and self-communication, this course is an excellent preparation for future experience in the business or legal sectors of an English-speaking environment. This course will provide delegates the ability to communicate on an international level using precise and correct legal language. Upon completion of the course, participants will improve their confidence in explaining points of law, enhance their drafting and editing skills, and ultimately represent their organisation in a more effective manner.

VISITS TO BUSINESSES, CORPORATIONS & OTHER INSTITUTIONS

|

"The summer course held by Oriel College and CBL International was very well done. The students could choose 4 courses from total 28 courses in four different fields including Law, Economics, International Relations and Legal & Business English. The students enjoyed the courses which are all given by professors who are related with Oxford University. This ensured the quality of the courses. The students studied and lived for 4 weeks at Oriel College, just like a real Oxford student!

They experienced the way of how Oxford professors teach and how to learn in a Western background. They communicate with their teachers and classmates from all over the world. After a whole month of study, they said, everything is like Harry Potter except that we did not learn any magic! The summer course may change their life direction in the future and has definitely changed their mind in a good way."

GUAN YAN (VICE SECTION CHIEF - SECTION OF FACULTY AND STUDENT EXCHANGE) NANKAI UNIVERSITY, TIANJIN (CHINA)

My students have different majors and most of them went abroad for the first time. Before our departure, they were all excited and curious about foreign culture and exotic customs. After one-month study, all my students successfully obtained graduation certificates and are satisfied with this experience. I was deeply impressed by the vigorous and interactive class atmosphere. Students were encouraged to express their thoughts and opinions, and some brilliant ideas could often be sparked during the process.

At weekends, Oriel College Oxford and CBL International organised trips to Bath, Cambridge and London and other activities, which were very interesting and educative, and closely linked to the law and economy study. I think CBL International summer session programme is a wise choice for both Chinese university students and teachers to open academic visions and experience foreign culture.

PROFESSOR HENRY HUANG (VICE DEAN OF LAW SCHOOL) BEIJING NORMAL UNIVERSITY (CHINA)

"In August 2011, participants from School of Economics and Management, Tongji University attended Oriel Summer Institute, organised by CBL International and Oriel College Oxford. The programme was a very well-organised workshop, focusing on international economics and management. It lasted 4 weeks, combined with several lectures delivered by Oxford professors and visits to Cambridge and London. The lectures have been a great experience in terms of having the opportunity to learn about UK business culture and society. Oxford University is the oldest university in the English-speaking world. It is also regarded as one of the world's leading academic institutions. It was a great experience for us to live, study and have meals at Oriel College Oxford. We can trace the university's roots back to the end of the 12th century from its lordly architecture. The facility in dormitory, lecture venues and dinner room was excellent. Our hosts at Oriel College Oxford and CBL International team have been fantastic, and have really helped to make the visit enjoyable and interesting."
